Scripture for reflection:

"...but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus."
Philippians #:13&14

"Wherefore I put you in remembrance, that you stir up the gift of God, which is in you...for God has not given us the spirit of fear; but of power and of love, and of a sound mind."
II Timothy 1:6&7

"...I now realize how true it is that God does not show favoritism but accepts men from every nation who fear him and do what is right."
Acts 10:34&35

"...draw near unto me, and I will draw near unto you; seek me diligently and you shall find me."
D&C 85:16

Touch Me Lord with thy Spirit Eternal Stir my soul to respond to they call

This year's retreat experience will be based on a wonderful Russian hymn (HS 409) that speaks to our need to deeply feel the touch of God in our lives – and our need to respond. We all need the touch of the Master's Hand in our lives! As spirit beings created by God – we need to both receive and give love. It is said that people came to Jesus not to ask to be forgiven, but because they already felt forgiven, accepted and loved. This strengthened them to be able to see themselves in other ways that enabled them to more clearly see the purposes that God had in their lives. With this vision, they were willing to discard those things in their lives that held them back and go humbly forward. They became people who were willing to be filled with the Spirit that guided them into areas of service. May also this be true for us on our life's journey.

Important Information

Retreat participants will have a choice of formats most comfortable to them: (1) the typical theme retreat with classes and lots of silent time for meditation, journaling and reflection or (2) the whole time with the exception of opening and closing worship will be in silence – the time will be yours. It will be helpful to know which retreat experience you desire so that appropriate materials can be produced.
